REGULATORY PROCESS: STAKEHOLDERS' INVOLVEMENT

PATRAM 2019 – Paper 1428 – REX new Belgian legislation

PRINCIPLES OF THE NEW REGULATION

PATRAM 2019 – Paper 1428 – REX new Belgian legislation

Principles of the new regulation

- Recognition of all carriers taking into account UN groups (graded approach):
 - UN Group 1: excepted packages
 - UN Group 2: non-fissile radioactive material
 - UN Group 3: fissile material
 - UN Group 4: UF6

• Licence for specific transports (including shipment approvals as foreseen in the international regulations)

Principles of the new regulation

- Monthly reporting for the carriers
- Notification (48h in advance) for some transports
- Recognition of :
 - Organisations involved in the multimodal transport (port and airport)
 - Site for interruptions of transport
- Licence for single transport or a limited number of handlings

FEEDBACK SELF-ASSESSMENT FANC

PATRAM 2019 – Paper 1428 – REX new Belgian legislation

One Year after : FANC feedback

- Transition went smoothly
- Main goals are achieved from the point of view of FANC:
 - Whole transport chain is covered
 - Administrative burden is less:
 - Less licences
 - Less notifications
 - New inspection systems have been set up
 - Feedback given to stakeholders during round table
- Improvements are already identified:
 - Modifications and clarifications of regulatory texts are proposed
 - Revision of the application form
 - E-governance (digital platform)
